

Sick Person Policy

The Nido and Mariana Qubein Children's Museum works to provide a safe and healthy learning environment for all our guests. Towards this end, we request the following "Sick Person Policy" be followed by our guests, our staff and our volunteers at all times.

As a general rule: if you or your child have a fever or are too sick to go to work or school, then you are too sick to visit the museum.

The following guidelines are more specific, and we request that visitors with these symptoms not visit the museum:

- Fever
- Flu-like symptoms (headache, high fever, chills, lethargy, muscle aches, cough, sore throat)
- Upper respiratory infections (cough, nasal congestion, runny nose, scratchy throat, painful swallowing, watery eyes – with or without fever)
- Cold symptoms (a fresh sneezy and runny cold)
- Diarrhea or vomiting
- Conjunctivitis or "pink eye" infection
- Impetigo (infectious skin disease which shows up as small pimples that turn into red blisters in a circular pattern)
- Lice
- Strep Throat (child must be on antibiotics for 48 hours before coming to the museum.)
- Any of the following contagious diseases: measles, mumps, rubella, roseola, and chicken pox. Children with chicken pox may not come until all of the sores are crusted and there are no new eruptions.

Staff may be called upon to identify the following symptoms and to ask a visitor to leave if symptoms are present.
